

Project Name : LABOURS & EMPLOYMENT

Track : Web development

Theme : Employability

Team : beginners

VISION

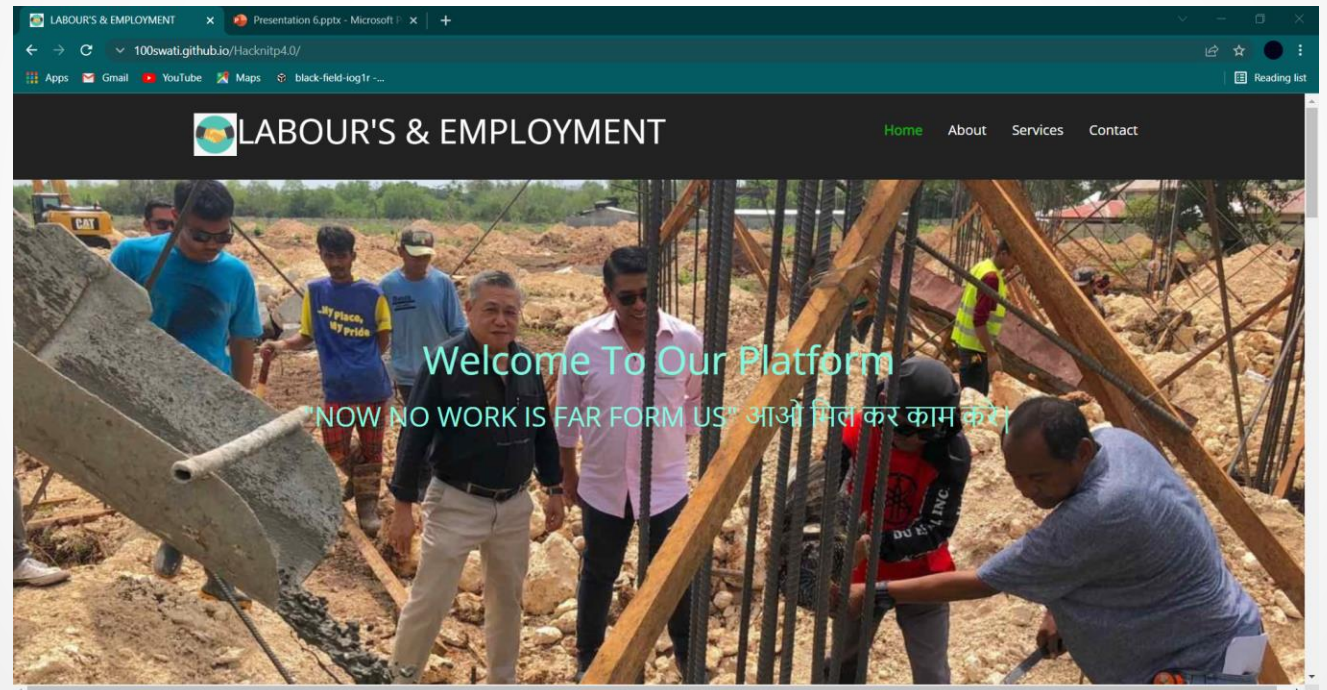

- We are here to help the labourers to get the jobs according to their interest and similarly employers to get the labourers for their work. Through our website, employers and labourers from various states can contact each other.

How does it work ?

- Visit our website.
- If you are a labourer then go to labourer's section, click on 'Job application form' , enter your details there and submit the form.
- If you want to see the jobs available, then click on 'Available Jobs List'.
- If you are an employer then go to employer's section, click on 'Available Job', enter the details and add jobs which you have available for the labourers.
- If you want to see the workers available, then click on 'Available Employee List'.
- In case you have any query, feel free to contact us and submit your query in the contact section.

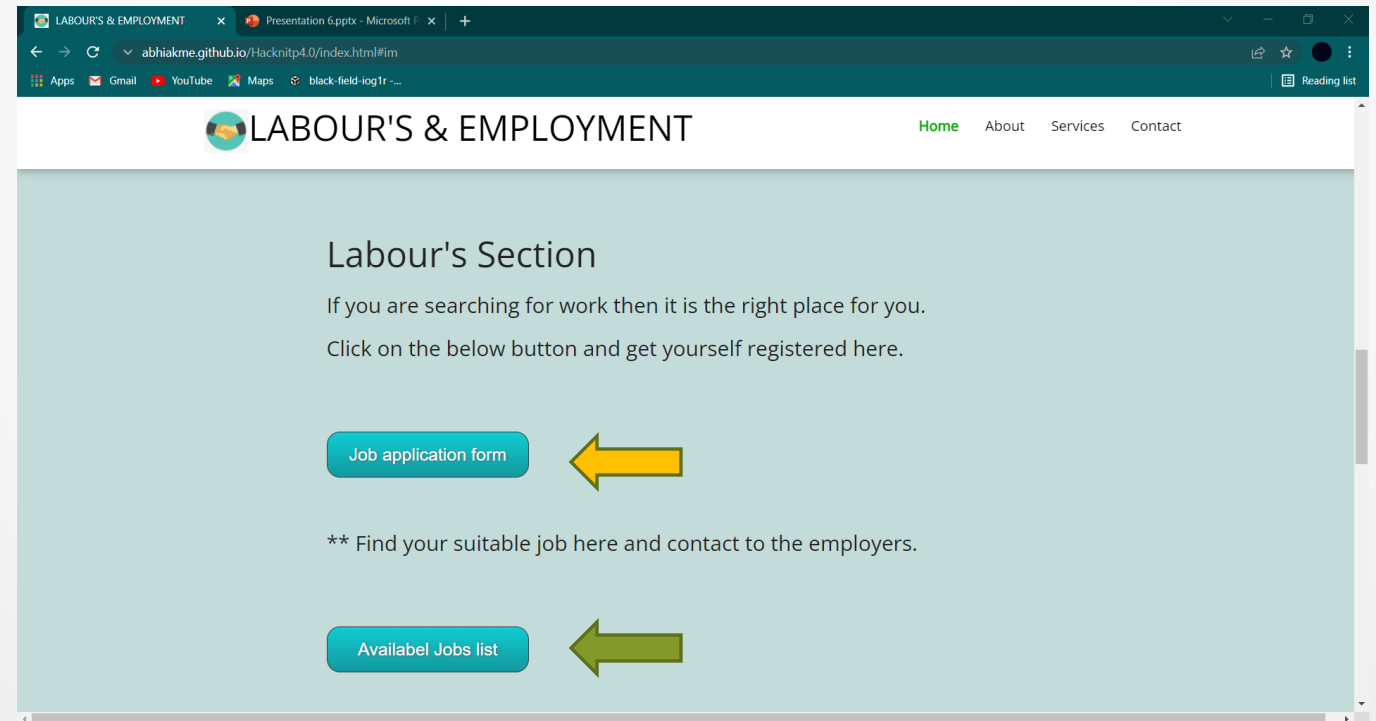

Step-by- step Guide

- Vist our website through the link
"https://abhiakme.github.io/Hacknitp4.0/index.html#".

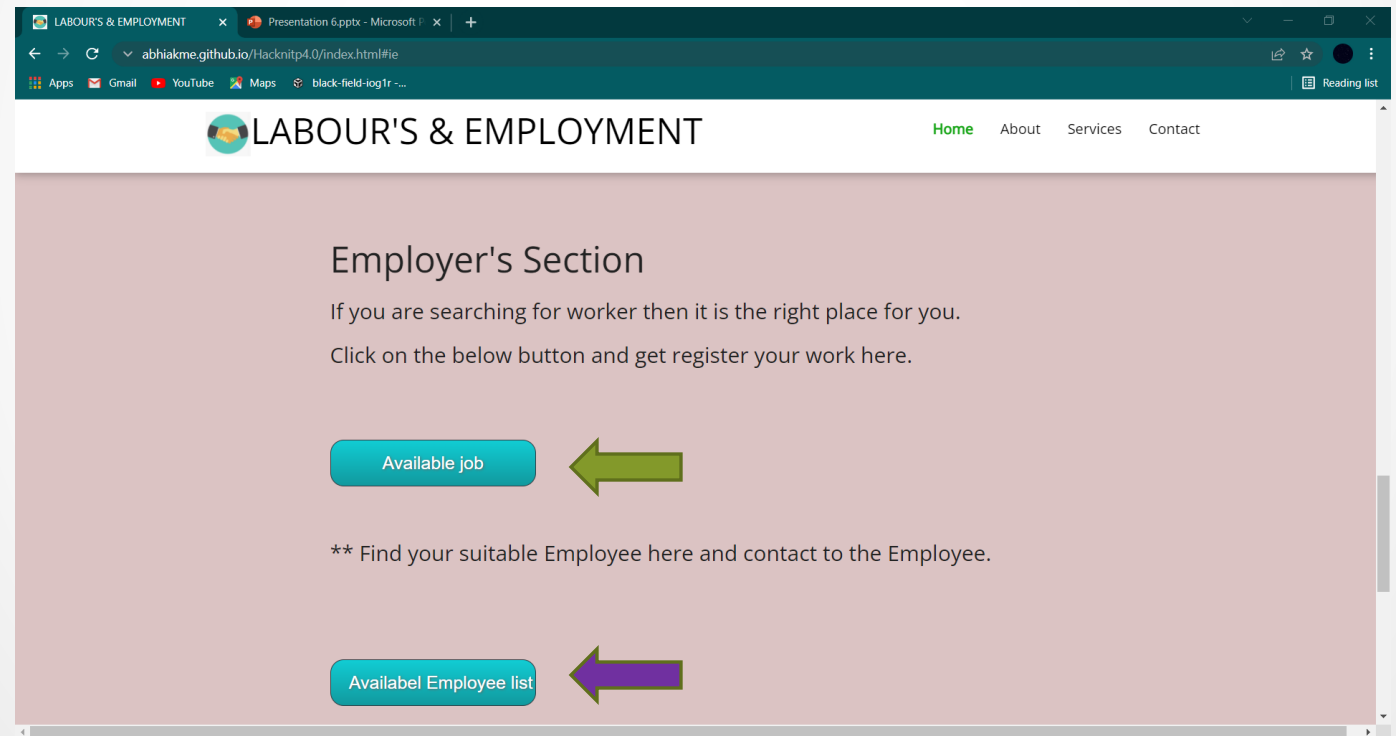

Step-by- step Guide

- If you are a labourer then go to labourer's section, click on 'Job application form', enter your details there and submit the form.
- If you want to see the jobs available, then click on 'Available Jobs List'.

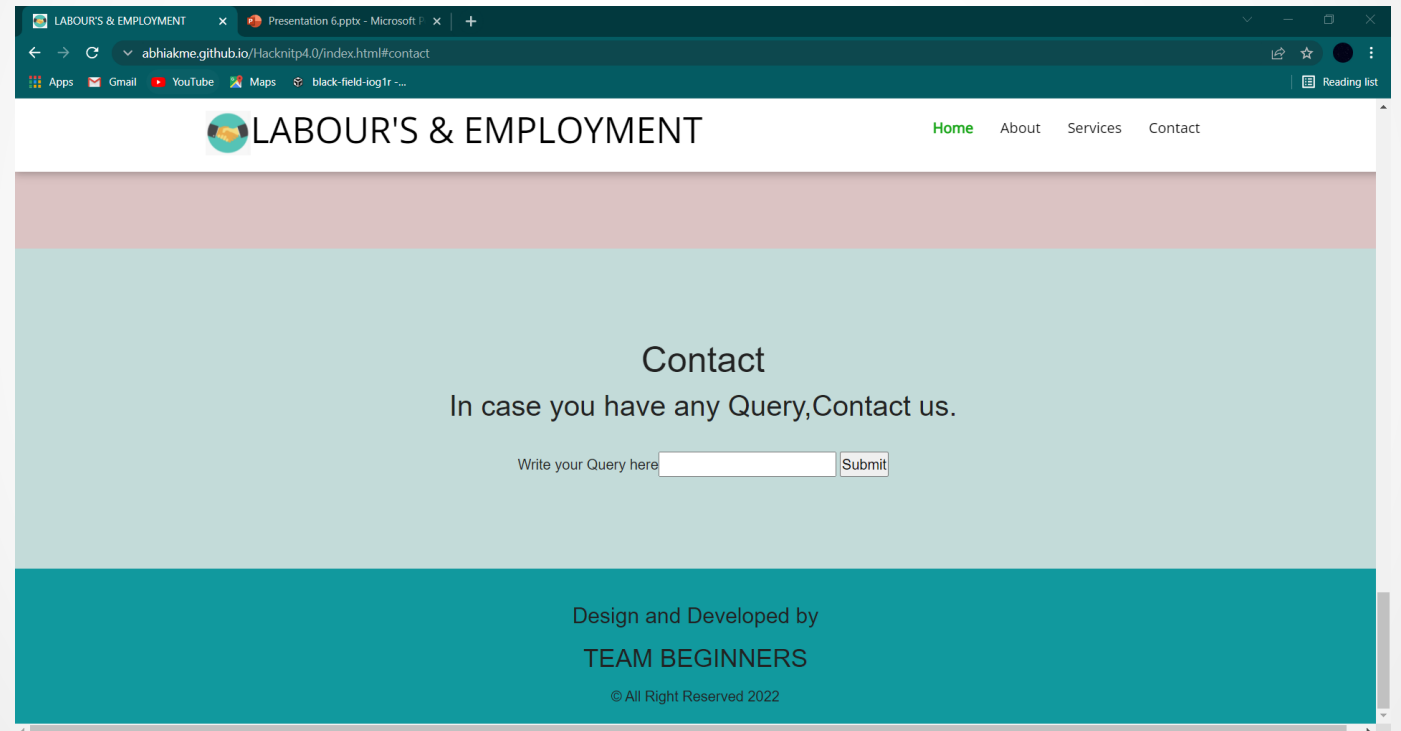

Step-by- step Guide

- If you are an employer then go to employer's section, click on 'Available Job', enter the details and add jobs which you have available for the labourers.
- If you want to see the workers available, then click on 'Available Employee List'.

Step-by- step Guide
